"The third entry in National Geographic's popular daily inspiration series combines uplifting words of wisdom and stunning photographs into a yearlong celebration of life's blessings, large and small. Filled with striking, natural-world photographs and insightful quotations, National Geographic's latest inspirational book takes on the most timeless and universal of topics: gratitude. Illuminating the diverse elements that make life precious, this book invites readers to savor what's really important--from friends and family to adventure and success to the simple comforts of home. Targeted to anyone interested in celebrating, reflecting on, and sharing the gift of appreciation, this beautiful book will be a keepsake to treasure every day of the year"-- Based on the runaway web phenomenon (dogshamingdotcom), Dog Shaming features the most hilarious, most shameful, and never-before-seen doggie misdeeds. Our dogs are our best friends. They are always happy to see us. They comfort us in our times of need. They also eat

our shoes, stain our carpets, and embarrass us in front of our guests. Dog owners everywhere have found their outlet in Dog Shaming, where they can confess their dogs' biggest (and often grossest!) sins, which turn out to be recognizably universal—complete with snapshots of ridiculously cute but shamed pups who don't seem capable of humping humans, pooping on pillows, or snagging steak straight from a grill. So share in the shaming and laugh through your frustration as Dog Shaming reminds us that unconditional love goes both ways. A listing of five hundred sites new and old, famous and unknown, that have been used to connect humanity with its gods. Combines meaningful, calming quotations and affirmations with evocative photography from the archives of National Geographic in an elegantly designed reference that centers on monthly themes organized to promote a year's worth of relaxation and meditation support. "Jokes about sports, intended for children"-- Throughout Scotland, over 2000 castles stand in testament to a land rich in heritage and tradition. This photographic collection reveals some of the best. This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet. Provides the latest information on a wide range of topics, including animals, culture, geography, the environments, history, and science. The "irresistible" New York Times bestseller that "features heartwarming stories of interspecies love and adorable

photographs" (The New York Times Book Review). Written by National Geographic magazine writer Jennifer Holland, *Unlikely Friendships* documents one heartwarming tale after another of animals who, with nothing else in common, bond in the most unexpected ways. A cat and a bird. A mare and a fawn. An elephant and a sheep. A snake and a hamster. The well-documented stories of Koko the gorilla and All Ball the kitten; and the hippo Owen and the tortoise Mzee. And almost inexplicable stories of predators befriending prey—an Indian leopard slips into a village every night to sleep with a calf. A lioness mothers a baby oryx. Holland narrates the details and arc of each story, and offers insights into why—how the young leopard, probably motherless, sought maternal comfort with the calf, and how a baby oryx inspired the same mothering instinct in the lioness. Or, in the story of Cashew, the lab mix that was losing his eyesight, and Libby, the stray cat who began to guide the dog's way through the house and yard. With Libby, Cashew lived out his last few years with loving support and a lasting friendship. These are the most amazing friendships between species, collected from around the world and documented in a selection of full-color candid photographs. "The feel-good book of the summer—maybe the year—may very well be *Unlikely Friendships*." —USA Today "With aww-inducing photographs, the book highlights the most improbable animal connections." —National Geographic This powerful photography collection, drawn from the celebrated National Geographic archive, reveals the lives of women from around the globe, accompanied by revelatory new interviews and portraits of contemporary trailblazers including Oprah Winfrey, Jane Goodall, and Christiane Amanpour. #MeToo. #GirlBoss. Time's Up. From Silicon Valley to politics and beyond, women are reshaping our world. Now, in anticipation of the 100th anniversary of the 19th amendment, this bold and inspiring book from National Geographic mines 130 years of photography to showcase their past, their present, and their future. With 300+ stunning images from more than 50 countries, each page of this glorious book offers compelling testimony about what it means to be female, from historic suffragettes to the haunting, green-eyed "Afghan

girl." Organized around chapter themes like grit, love, and joy, the book features brand-new commentary from a wide swath of luminaries including Laura Bush, Gloria Allred, Roxane Gay, Melinda Gates, New Zealand prime minister Jacinda Ardern, and the founders of the #MeToo and Black Lives Matter movements. Emerging over the past ten years from a set of post-structuralist theoretical lineages, non-representational theories are having a major impact within Human Geography. Non-representational theorisation and research has opened up new sets of problematics around the body, practice and performativity and inspired new ways of doing and writing human geography that aim to engage with the taking-place of everyday life. Drawing together a range of innovative contributions from leading writers, this is the first book to provide an extensive and in-depth overview of non-representational theories and human geography. The work addresses the core themes of this still-developing field, demonstrates the implications of non-representational theories for many aspects of human geographic thought and practice, and highlights areas of emergent critical debate. The collection is structured around four thematic sections - Life, Representation, Ethics and Politics - which explore the varied relations between non-representational theories and contemporary human geography.
