Selected by the American School Board Journal as a "Must Read" book when it was first published and named one of 60 "Books of the Century" by the University of South Carolina Museum of Education for its influence on American education, this provocative, carefully documented work shows how tracking—the system of grouping students for instruction on the basis of ability—reflects the class and racial inequalities of American society and helps to perpetuate them. For this new edition, Jeannie Oakes has added a new Preface and a new final chapter in which she discusses the "tracking wars" of the last twenty years, wars in which *Keeping Track* has played a central role. From reviews of the first edition: "Should be read by anyone who wishes to improve schools." —M. Donald Thomas,

American School Board Journal“[This] engaging [book] . . . has had an influence on educational thought and policy that few works of social science ever achieve.”—Tom Loveless in *The Tracking Wars*“Should be read by teachers, administrators, school board members, and parents.”—Georgia Lewis, *Childhood Education*“Valuable. . . . But before she sets sail on her ship of dreams, Finn stops off at the Foster family reunion to meet her relatives for the first time. When Finn arrives, she's captivated by the enchanting farmhouse where the reunion is being held. But she quickly realizes this reunion is weirder than she could have imagined. As one bizarre event leads to another, she finds herself ensnared in mysterious family traditions, and as her family's true intentions are revealed, Finn comes to a startling realization: This family reunion could open up a magical new world for Finn...or get her killed.
