Collective sense making starts with individual stories. Stories influence how we construct our sense of self in relation to others and our social environment, especially within the world of work. The stories we tell ourselves at work, particularly during times of change, impact our relationships and the collaboration with those who are engaged in the same work activities. Stories that we take for granted as “common sense” may not resonate with others, leading to conflict and tensions. This book focuses on the development of collaborative practices at work, and in organisations, through Collaborative Storytelling: from sharing stories to exchanging experiences and building a common narrative collectively. This open access book will be of interest to practitioners and academics working in the fields of adult education, equity and inclusion, human resource management, practice-based studies, organisational studies, qualitative research methods, sensemaking, storytelling, and workplace identity. This pocket guide to Scrum is the one book for everyone who wants to learn or re-learn about Scrum. The book describes the framework as it was designed and intended, with a strong focus on the purpose to the rules and adding an historical perspective to Scrum and the Agile movement. As the balance of society keeps shifting from industrial labor to digital work, complexity and unpredictability keep increasing. The need for agility through Scrum increases equally, in and beyond software and product development. This 3rd edition of Scrum - A Pocket Guide, while introducing some changes in terminology, more than ever offers the clarity and insights on Scrum that many organizations need, more than ever. It will help people and their organizations properly shape their Scrum, regardless of their domain or business. Scrum – A Pocket Guide is an extraordinarily competent book. It flows with insight, understanding, and perception. This should be the de facto standard handout for all looking for a complete, yet clear overview of Scrum without being bothered by irrelevancies. (Ken Schwaber, Scrum co-creator) The author, Gunther Verheyen, is a seasoned Scrum practitioner (2003). He has been employing Scrum since 2003. He was partner to Ken Schwaber and Director of the Professional Scrum series at Scrum.org. Global sports events are rarely far from the public eye. Such mega-events are about much more than the sporting competitions themselves. They entail global exposure and intense struggles by different stakeholders. This is the first book to examine sports mega-events from a mobilities perspective. It analyses the 'mobile construction' of global sports mega-events and the role this plays in managing labour, imaginaries, policies and legacies. In particular, the book focuses on the tension between the various mobilities and immobilities that are implied in the process of constructing a mega-event. It seeks to uncover the ways in which an event is a series of fluid interactions that occur sequentially and simultaneously at multiple scales in diverse spheres of interaction. Contributions explore the dynamics through which mega-events occur, revealing the textures and nuance of the complex systems that sustain them, and the ways that events ramify throughout the international system. Community managed forest systems embody a considerable portion of the wisdom, knowledge, and practical skills and management necessary for the sustainability of forest resources globally. These systems, however, are under threat in many ways, including from the rapid rate of change of their political, socio-economic, and biophysical contexts. Adapting forest management sufficiently quickly and effectively to meet these changes is both urgent and very challenging. This Guide introduces criteria and indicators of sustainability for community managed forest landscapes (CMF C&I) as a potential learning and communication tool that can help meet that challenge. It draws on CIFOR's collaborative research on CMF C&I in Brazil, Indonesia, and Cameroon to propose a flexible step-by-step approach to developing and implementing self or collaborative forest monitoring systems, and gives examples of C&I developed by communities in these countries. The approach is targeted to communities and their partners in forest management, such as NGOs, government, or development projects, who are seeking strategies to improve local well-being and forest sustainability through more effective learning, collaboration, and decision-making in local forest management. O livro Violência nas relações de jovens com parceiro íntimo e seus pares: perspectivas de abordagem quantitativa e qualitativa é o resultado de um amplo projeto que investiga o mesmo fenômeno: a violência no contexto relacional de jovens com parceiros íntimos, seus pares e fatores ligados às relações interpessoais e ambientais precedentes. O objetivo da obra é apresentar as etapas da experiência de pesquisa, com abordagens distintas, quantitativa e qualitativa, utilizando diferentes procedimentos de coleta e análise de dados. Os capítulos obedecem ao fluxo das etapas de desenvolvimento do projeto: inicialmente, a implementação dos processos de adaptação transcultural e análise das propriedades psicométricas do instrumento de pesquisa Parcour amoureux des jeunes/PAJ – Percorso amoroso de jovens/PAJ –, etapa necessária e fundamental à adequação do instrumento, para aplicação em contexto brasileiro. Em seguida, o desenvolvimento dos Subprojetos, os quais abordam diferentes manifestações violentas, na condição de vítima, agressor e reciprocidade agressiva, do convívio cotidiano, com parceiro íntimo e pares, considerando a multiplicidade e sutileza dos eventos e os antecedentes (ambientais e interpessoais). As principais metas das investigações foram: ampliar e aprofundar o leque de conhecimentos sobre o tema e a diversidade de atitudes violentas nos relacionamentos; compreender os fatores intervenientes na dinâmica do ciclo geracional da violência interpessoal; divulgar e incentivar novas investigações nessa área; subsidiar propostas, programas e políticas direcionadas à juventude, sensibilizando sobre a importância dos vínculos saudáveis e pacíficos, em favor da saúde física e mental das gerações, atual e futura. São hábitos. E se cada hábito isoladamente parece pouco relevante, com o passar do tempo os alimentos que comemos, o que dizemos aos filhos, as decisões que tomamos de poupar ou gastar, a frequência com que fazemos exercício e a forma como organizamos os nossos dias, acabam por ter um impacto enorme sobre a saúde, produtividade, bem-estar económico e felicidade. Transformar um hábito não é necessariamente fácil ou rápido. Nem sequer é simples. Mas é possível. E, hoje, graças a este livro sabemos como.
