The influence of women in the colonial family and the community is examined using tax and probate records of southside Colonial Virginia. Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade. This book presents psychological assessment and intervention in a cultural and relational context. A diverse range of contributors representing six continents and eleven countries write about their therapeutic interventions, all of which break the traditional

assessor-as-expert-oriented framework and offer a creative adaptation in service delivery. A Collaborative/Therapeutic Assessment model, including work with immigrant communities, and Indigenous modalities underscore individual and collective case illustrations highlighting equality in the roles of the provider and the receiver of services. Universality and uniqueness of culture are explored as a construct and through case material. Some chapters describe a partnership with a Eurocentric scientific model, whilst others adopt a purely community method, preserved with Indigenous language and subjective methodology. This volume brings together diverse therapeutic collaborative ideas, and recognizes relational, community, and cultural psychologies as integral to mainstream assessment and intervention literature. This book is essential for psychologists and clinicians internationally and graduate students. His Letters and Papers from Prison became a prized testimony to Christian faith and courage, read by thousands. Now in Life Together we have Pastor Bonhoeffer's experience of Christian community. This story of a unique fellowship in an underground seminary during the Nazi years reads like one of Paul's letters. It gives practical advice on how life together in Christ can be sustained in families and groups. The role of personal prayer, worship in common, everyday work, and Christian service is treated in simple, almost biblical, words. Life Together is bread for all who are hungry for the real life of Christian fellowship. emphasis on social action and movements is a real strength...I like that the three major perspectives are used in each chapter as I feel many texts just put that in the first chapter and then forget about it.” —Todd Michael Callais, University of Cincinnati-Blue Ash

A gripping, fiendishly clever mystery, *The Ink Black Heart* is a true tour-de-force. *Some of the more complex layouts in the book are rendered as images in the ebook version so that you can enlarge on your preferred reading device* In recent years, the rapidly growing field of community participation has promised to give people formerly excluded from decision making an influential voice about issues that affect their lives. Inclusive processes implemented in the United States and internationally have certainly given community members new opportunities to participate and be involved, but how effective are these processes in promoting the voice and influence of the people who have historically been excluded the most--the poorest, least educated, and most marginalized residents in communities? Of the various participants who have "a seat at the table," whose voices are influential, whose aren't, and why? This book summarizes how five community partnerships, working with a team of researchers, attempted to answer these critical questions. Investigating 10 cases--two from each community partnership--the study tracks the ideas of everyone involved and reveals how and why the ideas of marginalized and ordinary residents were far less likely to be influential than those of people with more clout, resources, or acknowledged expertise. Finally, the authors explain how and why these influence inequities can be overcome, providing readers with practical, evidence-based tools to help them do so. The book should be helpful to readers involved in any form of active community participation, from participatory research to civic engagement, deliberative democracy, and community initiatives. Instructors considering this book for use in a course may request an examination copy here. **ENABLES K-12 EDUCATORS TO CREATE SUCCESSFUL LEARNING**
