"Royal warrant holders." Reaching as far back as ancient times, Ronojoy Sen pairs a novel history of India's engagement with sport and a probing analysis of its cultural and political development under monarchy and colonialism, and as an independent nation. Some sports that originated in India have fallen out of favor, while others, such as cricket, have been adopted and made wholly India's own. Sen's innovative project casts sport less as a natural expression of human competition than as an instructive practice reflecting a unique play with power, morality, aesthetics, identity, and money. Sen follows the

transformation of sport from an elite, kingly pastime to a national obsession tied to colonialism, nationalism, and free market liberalization. He pays special attention to two modern phenomena: the dominance of cricket in the Indian consciousness and the chronic failure of a billion-strong nation to compete successfully in international sporting competitions, such as the Olympics. Innovatively incorporating examples from popular media and other unconventional sources, Sen not only captures the political nature of sport in India but also reveals the patterns of patronage, clientage, and institutionalization that have

bound this diverse nation together for centuries. This Elibron Classics title is a reprint of the original edition published by Edward Arnold in London, 1913. This book contains color illustrations. As a young officer in the prestigious 21st Lancers (motto 'Death or Glory') Douglas Haig played a leading role in Kitchener's bold expedition which ended in the defeat of the Khalifa of Sudan at Omdurman. He described the action, as he did the whole campaign, vividly in words and diagrams which survived virtually untouched at the family home Bemersyde in the Borders. These letters and diaries allow the reader to

trace Haig's career and developing character. What they reveal may well surprise his critics. Field Marshal Lord Haig will remain a hugely controversial figure due to his pre-eminent role during The Great War. He was a hugely popular public figure in the post WW1 years and revered by those who served under him. His death in 1928 was a major occasion for mourning. Only later was he heavily criticised for the slaughter of the trenches.
