Explorer's Guides Playa del Carmen, Tulum & the Riviera Maya: A Great Destination is no exception. The author's insider knowledge and selective recommendations make this book a must-have for your sojourn in Mexico. Let it help you make the most of your time in this beautiful place: delve deep into fascinating Mayan ruins; explore the pedestrian boardwalk in Playa del Carmen; or fish for elusive bonefish

along the famous Sian Ka'an biosphere reserve in Punta Allen. This fully revised and updated fourth edition features color photography; detailed maps; rich history; a glossary of English to Spanish phrases; a rundown of the best local swimming lagoons, hidden beaches, and great taco bars; events calendars; and much more. It's all you need to help you plan your best vacation yet. In the closing years of the fourteenth century, an anonymous French writer compiled a book addressed to a fifteen-year-old bride, narrated in the voice of her husband, a wealthy, aging Parisian. The book was designed to teach this young wife the moral

attributes, duties, and conduct befitting a woman of her station in society, in the almost certain event of her widowhood and subsequent remarriage. The work also provides a rich assembly of practical materials for the wife's use and for her household, including treatises on gardening and shopping, tips on choosing servants, directions on the medical care of horses and the training of hawks, plus menus for elaborate feasts, and more than 380 recipes. The Good Wife's Guide is the first complete modern English translation of this important medieval text also known as *Le Ménagier de Paris* (the Parisian household book), a work long recognized

for its unique insights into the domestic life of the bourgeoisie during the later Middle Ages. The Good Wife's Guide, expertly rendered into modern English by Gina L. Greco and Christine M. Rose, is accompanied by an informative critical introduction setting the work in its proper medieval context as a conduct manual. This edition presents the book in its entirety, as it must have existed for its earliest readers. The Guide is now a treasure for the classroom, appealing to anyone studying medieval literature or history or considering the complex lives of medieval women. It illuminates the milieu and composition process of

medieval authors and will in turn fascinate cooking or horticulture enthusiasts. The work illustrates how a (perhaps fictional) Parisian householder of the late fourteenth century might well have trained his wife so that her behavior could reflect honorably on him and enhance his reputation. The content of Footprint Focus Málaga guide has been extracted from Footprint's Andalucía Handbook. This guide provides examples of effective

organizations. It describes best practices': how some entities are managing change successfully. The organizations selected have all undertaken important and instructive initiatives. Most are public service organizations, but cases from the private sector are also included. Air-pumps, electrical machines, colliding ivory balls, coloured sparks, mechanical planetariums, magic mirrors, hot-air balloons - these are just a sample of the devices displayed in public demonstrations of science in the eighteenth century. Public and private demonstrations of natural philosophy in Europe then differed vastly from today's unadorned and

anonymous laboratory experiments. Science was cultivated for a variety of purposes in many different places; scientific instruments were built and used for investigative and didactic experiments as well as for entertainment and popular shows. Between the culture of curiosities which characterized the seventeenth century and the distinction between academic and popular science that gradually emerged in the nineteenth, the eighteenth century was a period when scientific activities took place in a variety of sites, ranging from academies, and learned societies to salons and popular fairs, shops and streets. This

collection of case studies describing public demonstrations in Britain, Germany, Italy and France exemplifies the wide variety of settings for scientific activities in the European Enlightenment. Filled with sparks and smells, the essays raise broader issues about the ways in which modern science established its legitimacy and social acceptability. They point to two major features of the cultures of science in the eighteenth-century: entertainment and utility. Experimental demonstrations were attended by apothecaries and craftsmen for vocational purposes. At the same time, they had to fit in with the taste

of both polite society and market culture. Public demonstrations were a favourite entertainment for ladies and gentlemen and a profitable activity for instrument makers and booksellers. La technique et le savoir-faire de l'éleveur constituent les clés essentielles de la réussite d'un atelier de productions

animales. La production caprine en est une illustration toute particulière, l'élevage de la chèvre étant destiné à la fourniture de lait, de viande, et plus rarement de fibre textile avec la production de mohair. Le guide de l'éleveur de chèvres dresse un panorama exhaustif et documenté d'une production emblématique française. L'ouvrage fait le point sur tous les aspects fondateurs d'une filière de qualité : • la première partie dresse un état des lieux de la filière caprine et présente son organisation à travers les différents systèmes de production et les organismes de services • la deuxième partie aborde les composantes

de la production caprine (sélection, reproduction, élevage des jeunes, alimentation, soins, logement et équipements d'élevage) en s'appuyant sur des bases scientifiques et zootechniques actualisées et rationnelles • la troisième partie traite des aspects technico-économiques, abordant tant les résultats de l'élevage que des éléments de références stabilisés. L'ensemble permet ainsi de porter un diagnostic sur l'atelier déjà existant, ou de réaliser une étude prévisionnelle de son futur atelier de production caprine. Cet ouvrage, richement illustré, s'adresse aux chevriers déjà installés ou en réflexion

sur leur projet d'installation, à tous les acteurs de la filière caprine ainsi qu'aux enseignants, formateurs et étudiants en enseignement agricole, sans oublier les personnes qui méconnaissent la multitude de métiers que les éleveurs de chèvres doivent savoir maîtriser c'est-à-dire producteur de lait, et bien souvent aussi fromager et commerçant. De plus, il intéressera les éleveurs amateurs qui sont souvent à la recherche de conseils pratiques et de connaissances plus précises sur les soins à apporter à leur troupeau.
