Yuganta studies the principal, mythical-heroic figures of the Mahabharata from historical, anthropological and secular perspectives. The usually venerated characters of this ancient Indian epic are here subjected to a rational enquiry that places them in context, unravels their hopes and fears, and imbues them with wholly human motives, thereby making their stories relevant and astonishing to contemporary readers. Irawati Karve, thus, presents a delightful collection of essays, scientific in spirit, yet appreciative of the literary tradition of the Mahabharata. She challenges the familiar and formulates refreshingly new interpretations, all the while refusing to judge harshly or venerate blindly. This collection of science fiction writings by Jayant V. Narlikar offers readers a unique glimpse into the world-famous Indian astrophysicist's vivid and highly imaginative concepts and stories. The fictional material comprises a witty short story ("The rare idol of Ganesha") that cleverly explores the possible consequences of a mirror-symmetric individual in the context of cricket test match performances, as well as the fast-paced, gripping science fiction thriller "The return of Vaman": when an alien container is unearthed by a crew of scientists, the enormous potential technological applications of its contents bring various criminal elements on the scene - but when the real danger becomes apparent it is almost too late to save humanity. Last but not least, the book provides readers with extensive insights into the genesis and scientific background of the fictional material presented in this volume, along with an autobiographical account of the author's life-long interest in science fiction and his contributions to the genre. About the author: Jayant V. Narlikar is internationally known for his work in cosmology, in particular for championing models alternative to the standard big-bang theory. He was president of the cosmology commission of the International Astronomical Union from 1994 to 1997. He has received several national and international awards and honorary doctorates - he is a Bhatnagar awardee, as well as recipient of the M.P. Birla award, the Prix Janssen of the French Astronomical Society and an Associate of the Royal Astronomical Society of London. He is Fellow of the three Indian national science academies as well as of the Third World Academy of Sciences. Well beyond his scientific research, Prof. Narlikar is widely known as a science communicator through his books, articles and radio/TV programs and he was honored by the UNESCO in 1996 with the Kalinga Award. He made his debut in science fiction writing in 1974, by winning the top prize in the story writing competition organized by the Marathi Vidnyan Parishad, a non-governmental organization engaged in science popularization. Here is a masterly study of the inner life by a heart thirsting after God, eager to grasp at least the outskirts of His ways, the abyss of His love for sinners, and the height of His unapproachable majesty—and it was written by a busy pastor in Chicago! Keywords: religion, christianity, christ, church, classic The high-stakes game of the underworld has new faces, working for and against Dawood Ibrahim - the shadowy, manipulative figure that pulls the strings. Dawood's own deputy turned arch-rival Chhota Rajan, thug-turned-politician Arun Gawli, Amar (Raavan) Naik and his engineer brother Ashwin Naik, and a host of other characters, big and small, walk the pages of this compelling history of the Maharashtrian mobsters who were once dubbed 'amchi muley', 'our boys', by Shiv Sena chief Bal Thackeray. Equally fascinating are the stories of the famous - and infamous - policemen and 'encounter specialists' who took the gangs on with great success and not too many scruples. Violence and deceit one expects to read of, but the strength of this book is also its ability to capture the mundane - almost naive - beginnings of what very quickly became the organized crime and brutal vendettas that held Mumbai to ransom through the last decades of the twentieth century. Meticulously researched and thrillingly told by the acknowledged expert on the underworld, this is faster-paced than Dongri to Dubai, and even more chilling in its implications for India and the subcontinent. He attends the same private tuitions as his classmate, Shirodkar, just for a glimpse of her, and follows her back home every day. Sadly, she has not a clue that he is pining away for her, because in their society, boys and girls don't interact freely, much less talk about love. When he's not negotiating the tricky alleys of love, Mukund sits around the school field or loafs about town with his close friends, Surya, Chitre and Phawdya, railing against the education system, and debating ideas such as discipline and Bohemianism. Set in a small Maharashtrian town during the Emergency of 1975, Shala is a heart-warming, nuanced novel about the adolescent struggles that are as tortuous in real time as they are amusing in retrospect. History of Nazi Germany. The story of Yayati is perhaps one of the most intriguing and fascinating episodes of Mahabharata. Yayati was a great scholar and one of the noblest rulers of olden times. Married to seductively beautiful Devayani, in love with her maid Sharmishtha, and father of five sons from two women, yet Yayati unabashedly declares, 'My lust for pleasure is unsatisfied...' In this groundbreaking book, Raghavan uses previously untapped archival sources to weave together new stories about the experiences of post-partition state-making in South Asia. Through meticulous research, it challenges the existing wisdom about the preponderance of animosity and the rhetoric of war. The book shows how amity and a spirit of cordiality governed relations between the states of India and Pakistan in the first five years after partition. Arguing that a hitherto overlooked set of considerations have to be integrated more closely into the analysis of bilateral dialogue, this book analyses the developments leading to the No War correspondence between Nehru and Liaquat Ali Khan, the signing of a 'Minorities' Pact between the two prime ministers, and the early stages of the Indus Waters negotiations, as well as exploring the calculations of Indian and Pakistani delegates at a series of interdominion conferences held in the years after partition. This book will be of interest to specialists in histories of diplomatic practice as well as a general audience in search of narratives of peace in the South Asia region. This book explores the history of Islam and the cultural, political, and socio-economic forces that have cultivated an environment that nurtures terrorism and idolizes its leaders.

The first Dalit autobiography to be published, Baluta caused a sensation when it first appeared, in Marathi, in 1978. It quickly acquired the status of a classic of modern Indian literature and was also a bestseller in Hindi and other major languages. This is the first time that it has been translated into English. Set in Mumbai and rural Maharashtra of the 1940s and '50s, it describes in shocking detail the practice of untouchability and caste violence. But it also speaks of the pride and courage of the Dalit community that often fought back for dignity. Most unusually, *Baluta* is also a frank account of the author's own failings and contradictions—his passions, prejudices and betrayals—as also those of some leading lights of the Dalit movement. In addition, it is a rare record of life in Maharashtra's villages and in the slums, chawls and gambling dens of Mumbai.

Steeped in sensuous detail, *Crowfall* takes in art and identity, music and communal madness, and the clash of the old and the new to etch a finely nuanced portrait of contemporary Mumbai.
