What do the human body and the automobile have in common? Both need tune-ups to work efficiently. Just as a car needs oil and gasoline to make the parts go, the human body needs exercise. Exercise makes us feel better, improves our strength and coordination, increases oxygen flow, and helps to keep us healthy. The human body, just like a car, is made to move. When it doesn't, things start to break down. This easy-to-use book is a great way to provide students with up-to-date information on the principles of exercise while simultaneously improving their reading comprehension skills. Relevant, high-interest activities follow each reading selection and challenge students to: read for details, make inferences, find the main idea, find facts, summarize data, build vocabulary, draw conclusions, restate information, and make decisions. Celebrate more than ninety-five years of Simon & Schuster crossword puzzle excellence with this engaging collection of 300 new, never-before-published crosswords, designed for fans of all skill levels. In 1924, Simon & Schuster published its first title The Cross Word Puzzle Book. Not only was it the publisher's first release, it was the first collection of crossword puzzles ever printed. Today, more than ninety-five years later, Simon & Schuster's legendary crossword puzzle book series continues with this new and appealing collection, offering hours of stimulation for solvers of every level.
