After crash landing into self publishing with nothing but the clothes she had on, author AK Taylor fought for survival with trying to market her books on a small budget. After two years of trial and error, reworking, refining, and reaching out, she has

created the first survival guide for book marketing compiled of great tools and resources that can be used by any author during the rough times. Comparing the book marketing wilderness with the real wilderness is how Taylor viewed the publishing world around her. Growing up in the woods and learning survival skills has given her this unique viewpoint for a different kind of world. When she started her search for information, a book marketing survival guide didn't exist—until now. Short: Have you ever been lost in the wilderness? Being lost in the wilderness is more dangerous and scarier than being lost anywhere else and more things can happen. Book marketing is just like being lost in the real wilderness with pitfalls, dangerous plants and animals, and knowing what is needed to survive during the rough times. Using outdoor survival skills and applying them to book marketing, AK Taylor has created the first survival guide for book marketing on a small budget. The Rough Guide to the USA is the

Whether you're launching a product, building an email list, putting up a blog, or any other website for that matter... you need a healthy dose of traffic coming in. And you can gather this traffic in various ways. There is the search engine organic traffic, social media traffic, and the paid one called Pay Per Click Advertising. But most free traffic methods take a lot of time to get them going plus it just doesn't convert all that well... When we think about Paid Advertising, Google Ads automatically pop up in our minds. Every marketer worth their salt knows about Google Ads, but many of them overlook Microsoft Ads (formerly Bing Ads) and its unique network of users. With Google controlling the majority share of online traffic, it's easy to write off Microsoft's Bing Ads as a search engine and PPC platform. But Microsoft Advertising, in particular, has enormous potential for businesses of all sizes — especially those with smaller budgets. Microsoft Advertising presents a fantastic opportunity to

generate search leads at a relatively lower cost, and that's something all advertisers should take note of. Microsoft Advertising's Audience Network Is A Hidden Gem That Brings A Lot Of Value & Programmatic Offerings! Microsoft Ads is Microsoft's self-serve advertising platform that allows advertisers to build campaigns and target users across Microsoft's Search and Audience Network. Although it started off small, Microsoft's search engine has continued to grow in Google's shadow, and now, according to ComScore, Bing and its partners make up a combined 39% of the US desktop search market! In fact, if you're running a paid ads campaign, it could be a mistake to ignore Bing and all the possibilities it can offer you. Depending on what you're selling and who you're targeting, Bing could be the missing piece of the puzzle for your marketing strategy. Here's why... As of March 2021, Bing hit 1,038 billion unique monthly visitors worldwide. This figure includes all web visits from desktop and mobile. There are

approximately 82.6 million Bing searches per day. There are 14.6 billion PC searches made on Bing every month. In 2020, revenue for Microsoft search advertising amounted to \$7.74 billion. In the United States, Bing ranked #24 in terms of traffic. Seems like it's worth paying attention to, right? Google search statistics show that Google dominates the search engine market, with Bing placing only second. However, this has not stopped Bing from amassing millions of unique PC users and generating billions of search queries. This year, people aren't going to be spending their money in brick-and-mortar shops, restaurants, bars, and clubs like they did in the past. In 2021 people are going to continue spending money online. So there's no better time than now to present them with your offers. But The Problem Is... You Can't Just Throw Up An Ad And Expect To Be In The Profit! Although Microsoft Ads is a very user-friendly platform, there are some details that you must pay attention to if you want to see success... We

Take Pride In Presenting... Microsoft Ads Training Guide Microsoft Ads training encompassing everything you need to know to get started with Microsoft Ads and optimize your campaigns for maximum profits. If you're launching a new company or becoming a self-employed entrepreneur, then this book is for you. Small-business Guide to Winning at Web

Marketing will help you to understand the electronic and traditional marketing landscapes and show how you can use them to benefit and grow your business. Today's marketing is a lot like playing pinball. It's not a straight shot - you have to bounce around a lot to really rack up the points and since some pins are worth more than others, you need a certain amount of skill and luck to be able to ping them more than once. In this book, you'll learn the game basics, some strategy, and a few tricks, but mastering pinball -- web marketing -- will depend entirely on how long you can keep the ball in play. I've spent 30 years as an entrepreneur - where you do it yourself because you don't have the budget for otherwise. There are thousands of search-engine optimization services that you can enlist, but you should understand the options available. There is so much where you can contribute and this will reduce the financial impact on your company that expensive contractors can have. This book starts with your web site and rolls

right on through social media, social bookmarking, blogging, press releases, news announcements, printed material, QR codes, and much more. Don't flounder - you don't have time.
