Russia's Regions and Comparative Subnational Politics Aug 18 2022 Subnational political units are growing in influence in national and international affairs, drawing increasing scholarly attention to politics beyond national capitals. In this book, leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia's subnational politics. Beginning with a chapter that reviews major debates in theory and method, this book continues to examine Russia's 83 regions, exploring a wide range of topics including the nature and stability of authoritarian regimes, federal politics, political parties, ethnic conflict, governance and inequality in a comparative perspective. Providing both qualitative and quantitative data from 20 years of original research, the book draws on elite interaction, public opinion and the role of institutions regionally in the post-Soviet years. The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies. The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions, providing evidence from Russia that can be used by specialists on other large countries or world regions in cross-national scholarship. Situated within broader theoretical and methodological political science debates, this book will be of interest to students and scholars of Russian politics, comparative politics, regionalism and subnational politics.

The Selection of Political Party Leaders in Contemporary Parliamentary Democracies Oct 28 2020 This book explores the ways in which political parties, in contemporary parliamentary democracies, choose their leaders and then subsequently hold them accountable. The authors provide a comprehensive examination of party leadership selection and accountability both through examination of parties and countries in different institutional settings and through a holistic analysis of the role of party leaders and the methods through which they assume, and exit, the office. The collection includes essays on Australia, Austria, Belgium, Canada, Germany, Hungary, Israel, Italy,

Portugal, Romania, Spain, Norway and the United Kingdom which have important differences in their party systems, their degree of democratization, the role assigned to party leaders and their methods of leadership selection. Each country examination provides significant data relating to party rules and norms of leadership selection, leadership tenures and leadership contests. The book concludes with a chapter that merges the country data analyses to provide a truly comparative examination of the theoretical questions underlying the volume. This book will be of strong interest to students and scholars of legislative studies, elections, democracy, political parties, party systems, political elites and comparative politics.

Vietnamese Communism In Comparative Perspective Sep 26 2020 This book focuses on how the Vietnam Communist party adapted to its environment in order to achieve and exercise power and to what degree these adaptations made the Vietnamese revolution distinctive.

Introduction to Comparative Politics Jun 16 2022 Written by a distinguished group of comparativists, this innovative and accessible introductory text surveys 12 key countries organized by their level of political development: established democracies, transitional democracies, and non-democracies. The country studies illuminate four comparative themes in a global context: 1. The world of states -- the interaction of states within the international order. 2. Governing the economy -- the role of the state in economic management. 3. The democratic idea -- the pressure for more democracy and the challenges of democratization. 4. The politics of collective identities -- the political impact of diverse attachments and sources of group identity. Make It Yours! Create your own customized version of INTRODUCTION TO COMPARATIVE POLITICS using only the chapters you need. In addition to the countries in the standard Table of Contents, choose additional coverage on Cuba, East-Central Europe, The European Union, Indonesia, South Africa, South Korea, and Turkey. Congressional Record Oct 16 2019 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The Politics of Party Leadership Mar 01 2021 Making use of a unique data set that includes more than 1000 leadership elections from over 100 parties in 14 countries over an almost 50 year period, this volume provides the first comprehensive, comparative examination of how parties choose their leaders and the impact of the different decisions they make in this regard. Among the issues examined are how leaders are chosen, the factors that result in parties changing their selection rules, how the rules affect the competitiveness of leadership elections, the types of leaders chosen, the impact of leadership transition on electoral outcomes, the factors affecting the length of leadership tenures, and how leadership tenures come to an end. This volume is situated in the literature on intra-party decision making and party organizational reform and makes unique and important contributions to our understanding of these areas. The analysis includes parties in Australia, Austria, Belgium, Canada, Denmark, Germany, Hungary, Israel, Italy, Portugal, Romania, Spain, Norway, and the United Kingdom. Comparative Politics is a series for students, teachers, and researchers of political science that deals with contemporary government and politics. Global in scope, books in the series are characterised by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information visit: www.ecprnet.eu.

Introduction to Comparative Politics: Political Challenges and Changing Agendas Dec 22 2022 Updated to reflect today's political climate, the seventh edition of INTRODUCTION TO COMPARATIVE POLITICS offers a country-by-country approach that allows students to fully examine similarities and differences among countries and within and between political systems. Each chapter offers an analysis of political challenges and changing agendas within countries and

provides detailed descriptions and analyses of the politics of individual countries. The text offers a condensed narrative and student-friendly pedagogy, such as marginal key terms and questions that will help them make meaningful connections and comparisons about the countries presented. This edition consists of 13 country case studies, as well as a case study on the European Union, providing an interesting sample of political regimes, levels of economic development, and geographic regions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Case Studies in Comparative Politics Jun 04 2021 Debuting in its first edition and written by a new generation of area studies experts, *Case Studies in Comparative Politics* follows a questions-based approach that helps readers understand different countries' political histories, institutions, identities, and interests and why each country is politically interesting and relevant. When used on its own or with the accompanying thematic survey, *Case Studies in Comparative Politics* asks--and answers--the same important questions that political scientists research and that are relevant to anyone interested in politics.

Indebted Societies Aug 26 2020 In many rich democracies, access to financial markets is now a prerequisite for fully participating in labor and housing markets and pursuing educational opportunities. *Indebted Societies* introduces a new social policy theory of everyday borrowing to examine how the rise of credit as a private alternative to the welfare state creates a new kind of social and economic citizenship. Andreas Wiedemann provides a rich study of income volatility and rising household indebtedness across OECD countries. Weaker social policies and a flexible knowledge economy have increased costs for housing, education, and raising a family - forcing many people into debt. By highlighting how credit markets interact with welfare states, the book helps explain why similar groups of people are more indebted in some countries than others. Moreover, it addresses the fundamental question of whether individuals, states, or markets should be responsible for addressing socio-economic risks and providing social opportunities.

Principles of Comparative Politics Feb 24 2023 *Principles of Comparative Politics* offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

Populist Threats and Democracy's Fate in Southeast Asia Jul 25 2020 Democracy in Southeast Asia has been explained using a number of factors including historical legacies, social structures, developmental levels, transitional processes, and institutional designs while other elements, such as elite-level relations and social coalitions, have been overlooked. This book offers a new explanation for democracy's collapse or persistence in Southeast Asia today. Focusing on Thailand, the Philippines and Indonesia — the three countries in the region with the most democratic experience — William Case shows that existing accounts based on contextual factors are by themselves incomplete. Hence, they lead us wrongly to anticipate democracy's persistence in Thailand and its

collapse in Indonesia. They more accurately, though only partially, correlate with democracy's fluctuations in the Philippines. Advancing a new argument, Case shows that democracy's fate is determined instead by the opportunities that contextual factors can provide for populist mobilization. His model enables us better to understand democracy's breakdown in Thailand, its survival in Indonesia, and its slippage in the Philippines. Presenting research into vital questions over democratic durability and authoritarian backlash, this book will be of interest to scholars in the field of comparative politics, specifically comparative democratization and Southeast Asian politics. Essentials of Comparative Politics Jan 31 2021 This ... text supplies a framework that enables students both to navigate and organize the material they will encounter in their study of comparative politics and to make increasingly sophisticated comparisons between actual countries. [In the text, the author's] approach incorporates analysis of the transformative events of recent history - among them, the fall of communism, the accelerating spread of democracy, the economic growth of Asia, globalization, and responses to the attacks of September 11, 2001.-Back cover.

The Jakarta Method Feb 18 2020 NAMED ONE OF THE BEST BOOKS OF 2020 BY NPR, THE FINANCIAL TIMES, AND GQ The hidden story of the wanton slaughter -- in Indonesia, Latin America, and around the world -- backed by the United States. In 1965, the U.S. government helped the Indonesian military kill approximately one million innocent civilians. This was one of the most important turning points of the twentieth century, eliminating the largest communist party outside China and the Soviet Union and inspiring copycat terror programs in faraway countries like Brazil and Chile. But these events remain widely overlooked, precisely because the CIA's secret interventions were so successful. In this bold and comprehensive new history, Vincent Bevins builds on his incisive reporting for the Washington Post, using recently declassified documents, archival research and eye-witness testimony collected across twelve countries to reveal a shocking legacy that spans the globe. For decades, it's been believed that parts of the developing world passed peacefully into the U.S.-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington's final triumph in the Cold War.

Introduction to Comparative Politics Apr 14 2022 This brief edition of the bestselling, full-length Introduction to Comparative Politics uses the same key themes to frame the presentation of each country's politics, placing a strong emphasis on political economy. This edition's easy to read 8x10" format and two-color design features new pedagogy, such as a marginal glossary, while maintaining the essential material of the full text.

Montesquieu's Comparative Politics and the Spirit of American Constitutionalism Jan 19 2020

Politics in Southeast Asia Nov 09 2021 This volume provides an introduction to the politics of the five key southeast Asian states - Malaysia, Singapore, Indonesia, Thailand and the Philippines - and is intended as a textbook for undergraduate and graduate students taking courses on this subject. Using a comparative politics and political economy perspective, the author focuses in particular on the degree of democracy in the five countries, arguing that in all the countries considered democracy is, to varying degrees, imperfect. The book synthesises a wide range of scholarship, and presents the material in a concise and accessible way.

The Long Twentieth Century Jun 23 2020 Winner of the American Sociological Association PEWS Award (1995) for Distinguished Scholarship The Long Twentieth Century traces the epochal shifts in the relationship between capital accumulation and state formation over a 700-year period. Giovanni Arrighi masterfully synthesizes social theory, comparative history and historical narrative in this account of the structures and agencies which have shaped the course of world history over the millennium. Borrowing from Braudel, Arrighi argues that the history of capitalism has unfolded as a succession of "long centuries"—ages during which a hegemonic power deploying a novel combination of economic and political networks secured control over an expanding world-economic space. The modest beginnings, rise and violent unraveling of the links forged between capital, state power, and geopolitics by hegemonic classes and states are explored with dramatic intensity. From this perspective, Arrighi explains the changing fortunes of Florentine, Venetian, Genoese, Dutch,

English, and finally American capitalism. The book concludes with an examination of the forces which have shaped and are now poised to undermine America's world power.

Introduction to Comparative Politics Jan 11 2022

Comparative Perspectives on Social Movements Feb 12 2022 Social movements such as environmentalism, feminism, nationalism, and the anti-immigration movement are a prominent feature of the modern world and have attracted increasing attention from scholars in many countries. *Comparative Perspectives on Social Movements*, first published in 1996, brings together a set of essays that focus upon mobilization structures and strategies, political opportunities, and cultural framing and ideologies. The essays are comparative and include studies of the former Soviet Union and eastern Europe, the United States, Italy, the Netherlands, and Germany. Their authors are amongst the leaders in the development of social movement theory and the empirical study of social movements.

In Search of the Federal Spirit Apr 02 2021 *In Search of the Federal Spirit* is a major new examination of the theory and practice of federal state formation in the post-Cold War era. It introduces the concept of the federal spirit as a means of exploring the emergence of a range of new political models.

Introduction to comparative politics Oct 08 2021

Career Behaviour and the European Parliament May 23 2020 This title seeks to answer the question of how a political institution, such as the European Parliament, can impact the career ambitions and behaviours chosen by European politicians.

Inside Countries Sep 07 2021 Offers a groundbreaking analysis of the distinctive substantive, theoretical and methodological contributions of subnational research in the field of comparative politics.

Outlines and Highlights for Introduction to Comparative Politics, Brief Edition by Mark Kesselman, Joel Krieger, Ervand Abrahamian, William a Joseph Sep 19 2022 Never HIGHLIGHT a Book Again! Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780618866830 .

Modern Comparative Politics Nov 21 2022

Social Movements in Politics Jul 05 2021 The author of this volume offers an exploration and application of contemporary social-movement theory and examines the different ways that European and North American scholars have thought about social movements since the Second World War. Also included in the text is an examination of three movements that captured attention during the 1980s, West German Greens, Poland's Solidarity and Peru's Shining Path.

Politics and Society May 03 2021

Foundations of Comparative Politics May 15 2022 The new edition of this leading overview of comparative politics once again blends theory and evidence across democratic systems to provide unparalleled coverage. The student-friendly structure and clear, concise writing ensure that complex issues are clearly explained and students engage with the key theories. The third edition is updated throughout, with a new chapter, 'Public Spending and Public Policies', increased coverage of defective democracies, and revised coverage of e-democracy and the power of the media. The pedagogy is simplified with a focus on 'Briefings' and 'Controversies' that feature examples from across the globe, alongside clear key terms, 'What We Have Learned' and 'Lessons of Comparison' sections, and a wealth of online materials to complete a rich teaching and learning package.

Essentials of Comparative Politics Apr 21 2020 The freshest, most contemporary introduction to comparative politics. *Essentials of Comparative Politics* introduces students to the concepts that political scientists use to study and compare political systems and the particulars of specific political systems. The Fourth Edition has been revised and updated to include the most current and relevant examples and scholarship. The text is available with a corresponding casebook of 13 country studies and a corresponding reader; the three components can be used individually or in any combination.

Capitalism, Not Globalism Dec 30 2020 Capitalism, Not Globalism shows that, while much has been made of recent changes in the international economy, the mechanisms by which politicians control the economy have not changed throughout the postwar period. Challenging both traditional and revisionist globalization theorists, William Roberts Clark argues that increased financial integration has led to neither a widening nor a narrowing of partisan differences in macroeconomic policies or outcomes. Rather, he shows that the absence of partisan differences in macroeconomic policy is a long-standing feature of democratic capitalist societies that can be traced to politicians' attempts to use the economy to help them survive in office. Changes in the structural landscape such as increased capital mobility and central bank independence do not necessarily diminish the ability of politicians to control the economy, but they do shape the strategies they use to do so. In a world of highly mobile capital, politicians manipulate monetary policy to create macroeconomic expansions prior to elections only if the exchange rate is flexible and the central bank is subservient. But they use fiscal policy to induce political business cycles when the exchange rate is fixed or the central bank is independent. William Roberts Clark is Assistant Professor, Department of Politics, New York University.

The Comparative Politics of Education Dec 10 2021 This book provides new evidence on teachers unions and their political activities across nations, and offers a foundation for a comparative politics of education.

Comparative Politics Mar 21 2020 "Comparative Politics" provides a comprehensive introduction to political systems around the world. It covers methods and theories; the nation-state; institutions; actors and processes; policies; and recent changes.

The Logic of Political Survival Nov 16 2019 The authors of this ambitious book address a fundamental political question: why are leaders who produce peace and prosperity turned out of office while those who preside over corruption, war, and misery endure? Considering this political puzzle, they also answer the related economic question of why some countries experience successful economic development and others do not. The authors construct a provocative theory on the selection of leaders and present specific formal models from which their central claims can be deduced. They show how political leaders allocate resources and how institutions for selecting leaders create incentives for leaders to pursue good and bad public policy. They also extend the model to explain the consequences of war on political survival. Throughout the book, they provide illustrations from history, ranging from ancient Sparta to Vichy France, and test the model against statistics gathered from cross-national data. The authors explain the political intuition underlying their theory in nontechnical language, reserving formal proofs for chapter appendixes. They conclude by presenting policy prescriptions based on what has been demonstrated theoretically and empirically.

New Frontiers in Open Innovation Dec 18 2019 Companies have to innovate to stay competitive, and they have to collaborate with other organizations to innovate effectively. Although the benefits of "open innovation" have been described in detail before, underlying mechanisms how companies can be successful open innovators have not been understood well. A growing community of innovation management researchers started to develop different frameworks to understand open innovation in a more systematic way. This book provides a thorough examination of research conducted to date on open innovation, as well as a comprehensive overview of what will be the most important, most promising and most relevant research topics in this area during the next decade. "Open Innovation: Researching a new paradigm" (OUP 2006) was the first initiative to bring open innovation closer to the academic community. Open innovation research has since then been growing in an exponential way and research has evolved in different and unexpected directions. As the research field is growing, it becomes increasingly difficult for young (and even experienced scholars) to keep an overview of the most important trends in open innovation research, of the research topics that are most promising for the coming years, and of the most interesting management challenges that are emerging in organizations practicing open innovation. In the spirit of an open approach to innovation, the editors have engaged other scholars and practitioners to contribute some of their

interesting insights in this book. Companies have to innovate to stay competitive, and they have to collaborate with other organizations to innovate effectively. Although the benefits of "open innovation" have been described in detail before, mechanisms underlying how companies can be successful "open innovators" have not been understood well. A growing community of innovation management researchers started to develop different frameworks to understand open innovation in a more systematic way.

Introduction to Comparative Politics + Mindtap Political Science, 1 Term 6 Months Access Card Oct 20 2022

The Logic of Pre-electoral Coalition Formation Aug 06 2021 Why do some parties coordinate their electoral strategies as part of a pre-electoral coalition, while others choose to compete independently at election time? Scholars have long ignored pre-electoral coalitions in favor of focusing on the government coalitions that form after parliamentary elections. Yet electoral coalitions are common, they affect electoral outcomes, and they have important implications for democratic policy-making itself. *The Logic of Pre-Electoral Coalition Formation* by Sona Nadenichek Golder includes a combination of methodological approaches (game theoretic, statistical, and historical) to explain why pre-electoral coalitions form in some instances but not in others. The results indicate that pre-electoral coalitions are more likely to form between ideologically compatible parties. They are also more likely to form when the expected coalition size is large (but not too large) and when the potential coalition partners are similar in size. Ideologically polarized party systems and disproportional electoral rules in combination also increase the likelihood of electoral coalition formation. Golder links the analysis of pre-electoral coalition formation to the larger government coalition literature by showing that pre-electoral agreements increase (a) the likelihood that a party will enter government, (b) the ideological compatibility of governments, and (c) the speed with which governments take office. In addition, pre-electoral coalitions provide an opportunity for combining the best elements of the majoritarian vision of democracy with the best elements of the proportional vision of democracy.

Russia's Regions and Comparative Subnational Politics Nov 28 2020 Subnational political units are growing in influence in national and international affairs, drawing increasing scholarly attention to politics beyond national capitals. In this book, leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia's subnational politics. Beginning with a chapter that reviews major debates in theory and method, this book continues to examine Russia's 83 regions, exploring a wide range of topics including the nature and stability of authoritarian regimes, federal politics, political parties, ethnic conflict, governance and inequality in a comparative perspective. Providing both qualitative and quantitative data from 20 years of original research, the book draws on elite interaction, public opinion and the role of institutions regionally in the post-Soviet years. The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies. The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions, providing evidence from Russia that can be used by specialists on other large countries or world regions in cross-national scholarship. Situated within broader theoretical and methodological political science debates, this book will be of interest to students and scholars of Russian politics, comparative politics, regionalism and subnational politics.

Principles of Comparative Politics Jan 23 2023 William Roberts Clark, Matt Golder, and Sona Nadenichek Golder's groundbreaking *Principles of Comparative Politics* offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, readers have an even better guide to cross-national comparison and why it matters. Readers are offered a new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results; a thoroughly-revised chapter on culture and democracy that now includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; and a revised chapter on

dictatorships that incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters and empirical examples and data on various types of institutions have been updated. The book's outstanding pedagogy includes more than 250 tables and figures, numerous photos and maps, end of chapter exercises and problem sets, and a broader set of works cited. New to this Edition A new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results are included. A thoroughly-revised chapter on culture and democracy includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics. A revised chapter on dictatorships incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters. Empirical examples and data on various types of institutions have been updated. Online videos and tutorials guide students through some of the methodological components addressed in the book.

Interest Group Politics in Europe Jul 17 2022 Interest organizations have always assumed a prominent place in European politics because they link states with citizens, institutionalize the resolution of social conflicts, regulate important sectors of the economy and society, contribute to workable policy outcomes and socialize members into democratic politics. However, the plethora of interest group studies that exist have not consolidated our understanding of these actors. These analyses have been subject to the vagaries of different theoretical perspectives and vary greatly in their conceptual and methodological frameworks. Consequently, a not always complementary and fragmented series of findings has emerged. This book is a systematic and comprehensive effort at investigating and integrating the state of the art in European interest group research. Combining the analysis of interest group politics in the EU with the comparative study of interest organizations, the book seeks to identify the areas about which there is consolidated knowledge, that are marked by controversies, in which considerable uncertainty exists, that have been omitted from research programs and that ought to be part of future studies. Thereby, it provides a general reflection on how the study of interest group politics can be improved by linking it to the comparative study of governance. This book was published as a special issue of West European Politics.

King William's Tontine Mar 13 2022 The book reviews the finance, economics, and history of tontines, and argues that they should be resurrected in the twenty-first century.
