National Bestseller and Winner of the PEN/Faulkner Award for Fiction Oscar Feldman, the renowned figurative painter, has passed away. As his obituary notes, Oscar is survived by his wife, Abigail, their son, Ethan, and his sister, the well known abstract painter Maxine Feldman. What the obituary does not note, however, is that Oscar is also survived by his longtime mistress, Teddy St. Cloud, and their daughters. As two biographers interview the women in an attempt to set the record straight, the open secret of his affair reaches a boiling point and a devastating skeleton threatens to come to light. From the acclaimed author of *The Epicure's Lament*, a scintillating novel of secrets, love, and legacy in the New York art world. "Mischievous...funny, astute...As unexpectedly generous as it is entertaining.... Christensen is a witty observer of the art universe." —The New York Times

Choosing between the stability of a traditional career and the upside of entrepreneurship? Why not have both? Becoming a full-time entrepreneur can look glamorous from the outside. Who doesn't want to chase their dreams, be their own boss, and do what they love? But the truth is th

entrepreneurship is often a slog, with no regular hours, no job security, and very little pay. What if there was a way to have the stability of a day job with the excitement of a startup? All of the benefits of entrepreneurship with none of the pitfalls? In *The 10% Entrepreneur*, Patrick McGinnis shows you how, by investing just 10% of your time and resources, you can become an entrepreneur without losing a steady paycheck. McGinnis details a step-by-step plan that takes you from identifying your first entrepreneurial project to figuring out the smartest way to commit resources to it. He shows you how to select and engage in projects that will provide you with upside outside the office while making you better at your day job. He also profiles real-world 10% Entrepreneurs such as...

- Luke Holden, a cash-strapped recent college graduate, who started his own lobster-roll empire and oversaw much of its first year of operations, all while working full time in corporate America
- Dipali Patwa, a designer and mom whose side project designing and selling infant clothing is now a sensation.
- A group of friends who met at a 6am Bible study class and went on to start a brewery that now generates millions in sales.

A successful 10% Entrepreneur himself, McGinnis explains the multiple paths you can follow to invest your cash, time, and expertise in a start-up—including as a founder, angel, adviser, or aficionado. Most importantly, you don't have to have millions in disposable income to become a 10% Entrepreneur. When you put McGinnis's 10% principles into action, you'll quickly start racking up small wins, then watch as they snowball into your new (and

far more entrepreneurial) life. You've heard of the "Great Books"? These are their evil opposites. From Machiavelli's The Prince to Karl Marx's The Communist Manifesto to Alfred Kinsey's Sexual Behavior in the Human Male, these "influential" books have led to war, genocide, totalitarian oppression, family breakdown, and disastrous social experiments. And yet these authors' bad ideas are still popular and pervasive--in fact, they might influence your own thinking without your realizing it. Here with the antidote is Professor Benjamin Wiker. In his scintillating new book, 10 Books That Screwed Up the World (And 5 Others That Didn't Help), he seizes each of these evil books by its malignant heart and exposes it to the light of day. When it was introduced into service in 1953, the T-10 represented

return to the "classic" Soviet heavy tank. Although considered a major threat to NATO tank forces, it also represented the end of an era. All gun heavy tanks like the T-10 would eventually be made effectively redundant by later models like the T-62 which had powerful next generation armament and new ammunition types. The tank was gradually withdrawn from service in the 1970s, though the last tanks would only leave Russian service, by decree of the President of the Russian Federation, in 1997. As such the T-10 outlived the Soviet state that had created it. Never exported outside of the Soviet Union and rarely used in combat, the T-10 has remained a mysterious tank, with many of its variants unknown in the West until very recently. This study, written from original Russian and Ukrainian primary source documents that have only recently been made available, uncovers the history of this enigmatic tank using 130 stunning contemporary and modern photographs of the T-10 as well as full colour side-view artwork. This volume coins the term "Team 10 East" as a conceptual tool to discuss the work of Team 10 members and fellow travelers from state-socialist countries—such as Oskar

Hansen of Poland, Charles Polónyi of Hungary, and Radovan Nikšić of Yugoslavia. This new term allows the book's contributors to approach these individuals from a comparative perspective on socialist modernism in Central and Eastern Europe and to discuss the relationship between modernism and modernization across the Iron Curtain. In so doing, Team 10 East addresses "revisionism" in state-socialist architecture and politics as well as shows how Team 10 East architects appropriated, critiqued, and developed postwar modernist architecture and functionalist urbanism both from within and beyond the confines of a Europe split by the Cold War.
