Taming the Star Runner \_\_\_\_ Jul 25 2020 The classic YA story of a boy, a horse, and pursuit of a dream. TAMING THE STAR RUNNER written by celebrated novelist S.E. Hinton, now available as an eBook for the first time. With an absent mother and a domineering step-father, Travis uses his tough-guy exterior to hide his true passion: writing. After a violent confrontation with his step-father, Travis is sent to live on his uncle's horse ranch - exile to a born-and-bred city kid. Angry and yearning for a connection, Travis befriends Casey, the horse-riding instructor at the ranch, and the un-tamable horse in her stable: the Star Runner. When a friend from the city visits with stories of other kids from the neighborhood facing jail time, Travis is more determined than ever that he needs to escape the life of juvenile delinquency he seems destined for. When the offer of a book deal comes through, Travis is hopeful that this is his chance to escape, if only his step-father will stop standing in the way of his dreams. From the author of THE OUTSIDERS, S.E. Hinton once again writes about what it feels like to be unaccepted, and the power in being true to yourself. "Hinton continues to grow more reflective in her books, but her great understanding, not of what teenagers are but of what they can hope to be, is undiminished."—Kirkus Reviews An ALA Best Books for Young Adults An ALA Quick Pick

Newcomers, Outsiders, and Insiders Mar 21 2020 "The authors have done a commendable and impressive job of addressing a topic of long-lasting and increasing significance in U.S. politics."

---F. Chris Garcia, University of New Mexico "This is a path-breaking book that will be read across disciplines beyond political science." ---James Jennings, Tufts University Over the past four decades, the United States has experienced the largest influx of immigrants in its history. Not only has the ratio of European to non-European newcomers changed, but recent arrivals are coming from the Asian subcontinent, Southeast Asia, South America, and other regions which have not previously supplied many immigrants to the United States. In this timely study, a team of political scientists examines how the arrival of these newcomers has affected the efforts of long-standing minority

groups---Blacks, Latinos, and Asian Pacific Americans---to gain equality through greater political representation and power. The authors predict that, for some time to come, the United States will function as a complex multiracial hierarchy, rather than as a genuine democracy. Outliers Jan 11 2022 From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you

think about your own life story, and about what makes us all unique. The Age of Dualization      Apr 14 2022 Poverty, increased inequality, and social exclusion are back on the political agenda in Western Europe, not only as a consequence of the Great Recession of 2008, but also because of a seemingly structural trend towards increased inequality in advanced industrial societies that has persisted since the 1970s. How can we explain this increase in inequalities? Policies in labor markets, social policy, and political representation are strongly linked in the creation, widening, and deepening of insider-outsider divides--a process known as dualization. While it is certainly not the only driver of increasing inequality, the encompassing nature of its development across multiple domains makes dualization one of the most important current trends affecting developed societies. However, the extent and forms of dualization vary greatly across countries. The comparative perspective of this book provides insights into why Nordic countries witness lower levels of insider-outsider divides, whereas in continental, liberal and southern welfare states, they are more likely to constitute a core characteristic of the political economy. Most importantly,

the comparisons presented in this book point to the crucial importance of politics and political choice in driving and shaping the social outcomes of deindustrialization. While increased structural labor market divides can be found across all countries, governments have a strong responsibility in shaping the distributive consequences of these labor market changes. Insider-outsider divides are not a straightforward consequence of deindustrialization, but rather the result of political choice. A landmark publication, this volume is geared for faculty and graduate students of economics, political science, social policy, and sociology, as well as policymakers concerned with increasing inequality in a period of deep economic and social crisis.

The Leftovers Sep 26 2020 A startling, thought-provoking novel about love, connection and loss from the New York Times bestselling author of *The Abstinence Teacher* and *Little Children*. What if the Rapture happened and you got left behind? Or what if it wasn't the Rapture at all, but something murkier, a burst of mysterious, apparently random disappearances that shattered the world in a single moment, dividing history into Before and After, leaving no one unscathed? How would you rebuild your life in the wake of such a devastating event? This is the question confronting the bewildered citizens of Mapleton, a formerly comfortable suburban community that lost over a hundred people in the Sudden Departure. Kevin Garvey, the new mayor, wants to speed up the healing process, to bring a sense of renewed hope and purpose to his traumatized neighbours, even as his own family falls apart. His wife, Laurie, has left him to enlist in the Guilty Remnant, a homegrown cult whose members take a vow of silence but haunt the streets of town as "living reminders" of God's judgment. His son, Tom, is gone, too, dropping out of college to follow a sketchy prophet by the name of Holy Wayne. Only Kevin's teenaged daughter, Jill, remains, and she's definitely not the sweet "A" student she used to be. Kevin wants to help her, but he's distracted by his growing attraction to Nora Durst, a woman who lost her entire family in the tragedy, and is still reeling three years later, groping for a way to face the remainder of her life. Through the prism of a single family, Perrotta illuminates a familiar America made strange by grief and apocalyptic anxiety. *The Leftovers* is a powerful and deeply moving book about people struggling to hold on to a belief in their own futures.

Burnt Shadows Aug 06 2021 Hiroko steps out onto the veranda. Her body from neck down a silk column, white with three black cranes swooping across her back. She looks out towards the mountains, and everything is more beautiful to her than it was early this morning. Nagasaki is more beautiful to her than ever before. She turns her head and sees the spires of Urakami Cathedral, which Konrad is looking up at when he notices a gap open between the clouds. Sunlight streams through, pushing the clouds apart even further. Hiroko. And then the world goes white. —From *Burnt Shadows* by Kamila Shamsie -- The morning of August 9, 1945 breaks dreary and unspectacular in the city of Nagasaki. Nonetheless, twenty-one year-old Hiroko Tanaka is elated: she is in love. Her emerging romance with the displaced German Konrad Weiss offers release from the greyness of wartime deprivation. In this time of heightened xenophobia, their affair must be kept secret, particularly as Hiroko's father has recently been outcast for questioning the patriotism of sending children on kamikaze missions. As Hiroko and Konrad furtively plan for a future after the war, there is no way they can comprehend the unspeakable devastation bearing down upon them. Two years later, Hiroko arrives in Delhi at the home of Konrad's sister Ilse and his brother-in-law James Burton. Upon Hiroko's back are crane-shaped scars, seared into her skin when her kimono was incinerated by the bomb. She is on the run from unbearable memories, as well as from the stigma of being branded a hibakusha, a survivor of the bomb. Ilse, in an uncharacteristically impulsive move, welcomes Hiroko into her home, seeing in the brave young woman a possibility of release from her own conscripted existence. Hiroko quickly destabilizes the frigid hierarchy of the household, much to the relief of Sajjad Ashraf, James's bored servant. Tensions are running high in the Mohalla with the looming partition of India and Pakistan. Will Sajjad remain in his beloved Dilli/Delhi, or depart with so many others for the promise of Pakistan? Sajjad's family has secured for him a wife, and he yearns for a legal career, still half-clinging to the hope that James will assist him. But James's only use for him is as a chess opponent, an idle distraction as the Raj winds to a close. The Burtons are preparing to decamp for England, having already dispatched their son Harry to boarding school. But what James does not know is that Ilse is making other plans. A romance blooms between Hiroko and Sajjad, much to the incredulity of the Burtons, whose own

emotional lives have become entwined in the futures of their charismatic young charges. Despite outbursts of jealousies and a terrible act of betrayal, the Burtons nevertheless assist Hiroko and Sajjad in their flight to married life in Istanbul. Later the Ashrafs will move to Karachi to raise their son, Raza. The lives of the Ashrafs and the Burtons will remain entwined for decades, though in ways they cannot anticipate. Across continents and through geopolitical flux, each family will continue to act as a catalytic force upon the other, sometimes in life-saving ways, and sometimes causing great peril. Why is it that some bonds flourish in times of crisis, and why do some fail? What defines the character that survives the cruelest of circumstances? And how is it that entire populations can support unspeakable acts en masse, while relating as individuals with compassion? Longlisted for the prestigious Orange Prize for Fiction, Kamila Shamsie's *Burnt Shadows* is an enthralling meta-cultural epic, the panoramic tale of two families tangled together in some of the most devastating conflicts of modern history.

The Paranoid Style in American Politics Nov 09 2021 This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In The Paranoid Style in American Politics, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?", The Paranoid Style in American Politics remains both a seminal text of political history and a vital analysis of the ways in which

political groups function in the United States.

Things Fall Apart Aug 18 2022 THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the

cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

The authors review relevant theory while integrating a constitutive approach to studying organizational culture and communication. Practical guides for multiple data collection methods are provided, and the workbook format is full of interactive tools that engage students and reinforce learning. The revised OCA cultural analysis model in this edition provides the below elements. • The revised first step in the model – "articulating the value of cultural analysis" includes connections to public relations and crisis management. • A definition of communication and the analysis process that foregrounds ethics throughout the book is included. • Recent research on organizational moral learning is integrated in the ethics chapter, and throughout the book. • The Communicative Constitutive of Organizations is now foregrounded throughout the book, and reflected in a table capturing variable and metaphor approaches to culture. • The latest applied research is integrated in units on diversity, change, leadership, and effectiveness in relation to positive organizational communication. • Enriched guides on multiple data collection methods now includes surveys. • Cases, examples, and applications relevant to crisis, employee engagement, virtual organizations, conflict management, and public relations are provided. Professionals come away equipped to apply cultural insights to fostering inclusiveness in relation to diversity, supporting organizational change, making leadership more dynamic, understanding the link between ethics and culture, and achieving personal and professional growth.
