**Ta Sba Balamil Ta Ch'ulel ~ On The Face Of The Earth And In The Soul** Sep 07 2021 In 2014, artist and poet Bruce Rimell visited the city of San Cristóbal de las Casas, Chiapas, Mexico as part of a programme of arts cultural events and indigenous ceremonies. To prepare for this journey, Bruce chose not to learn Spanish but Tzotzil, the local Maya language, and to explore the indigenous people's beliefs, worldviews and ways of life. During these researches, he learned that the Tzotzil pay close attention to their dreams, and they consider that Westerners and non-Maya Mexicans who ignore these night-time voyages live only half a life. This philosophy is expressed in the succinct Tzotzil phrase ta sba balamil ta ch'ulel, 'on the face of the Earth, and in the soul', meaning that human life must be lived in both waking life and dreams. This little book of strange verse accompanied by surreal sketches is an attempt to bridge the gap between the Mayan cosmovision and the Western world, and represents an integrated reflection of Bruce's journey to Chiapas. Featuring visits to contemporary highland Maya villages, archaeological sites and time spent with indigenous people – on the face of the Earth – as well as ceremonies, visions and dreams – and in the soul – that became increasingly influenced by Tzotzil insights into how to live, this collection of poetry expresses Bruce's effort to intimate something of that fuller dreaming human life which for the indigenous people of Chiapas is as natural as events in the waking world. This delightfully designed volume features poems in both English and selected translations into the Tzotzil language, and it is the fourth in the new Xibalba Books Poetry Series aimed at republishing selected highlights from Bruce's vast poetry archive.

**San Cristobal** May 23 2020 In 1962, the eyes of the world were focused on San Cristobal, Cuba. The Soviet Union installed missiles equipped with nuclear warheads there that could strike American cities. After a three month confrontation that became known as the Cuban Missile Crisis, the missiles and the bombs were removed.....Or were they? Had something deadly remained behind, hidden deep inside an old weapons bunker in San Cristobal all the intervening years? Can a former Soviet scientist now residing in Cuba bring an old evil to life again? Can the wife of a CIA agent stop a plot that once again, makes San Cristobal one of the most frightening places in the world? San Cristobal is a gripping and suspenseful novel that is filled with intrigue, deceit, cunning and blackmail. If a secret plot succeeds, the entire world could suffer an unimaginable and unthinkable calamity. In his sixth novel, Bruce Weiss once again delivers a spellbinding tale that will keep the reader totally involved right up to the most shocking ending.

**The Quest for the Other** May 15 2022 Every year, millions of tourists scan the world for exotic locales where they can escape their own world and encounter the other. One such place is San Cristobal de las Casas, in Chiapas, Mexico, where you can observe German tourists struggling with chopsticks in a Chinese restaurant, to the accompaniment of pseudo-Chinese music played on an African thumb piano by a black American from San Francisco. While eating, diners may purchase bows and arrows from Lacandon Indians pushed out of their native forests by the hum of chain-saws and advancing herds of Brahman cattle. San Cristobal is one of the frontiers of ethnic tourism where the privileged, moneyed, and leisured meet the poor, struggling, and exotic. Pierre van den Berghe, who first visited San Cristobal in 1959, found that between his visits in 1977 and 1987 the town had moved from seeing a small daily volume of mostly back-pack tourists to accommodating a daily flow of hundreds of tourists of all descriptions. He decided to investigate the impact of tourism in the area, and the result is the first study of its kind dealing with Mexico, as well as the first book-length study of ethnic tourism - tourism motivated by an active search for the "ethnically exotic". Van den Berghe skillfully combines interviews, statistics, observation, and analysis to produce a vivid and insightful picture of the interaction between tourists, the indigenous Maya population, and the ladinos who act as the middlemen between the other two groups. The Quest for the Other contains many implications for tourism policy, both specifying the conditions of success and warning of potential dangers. San Cristobal is, in many ways, a best-case scenario. Almost everyone is better off, if only marginally, through the development of tourism. "Ethnic tourism", writes the author, "not only debases and destroys what it touches, it also renews and transforms it in profoundly creative ways. The staged authenticity of tourist shows can sometimes become the authentic stage of a cultural revival. At the very least, one should suspend negative value judgments as to the impact of tourism on indigenous cultures".

**The Portage to San Cristobal of A. H.** Feb 24 2023 Imagine, thirty years after the end of World War II, Israeli Nazi-hunters, some of whom lost relatives in the gas chambers of Nazi Germany, find a silent old man deep in the Amazon jungle. He is Adolph Hitler. The narrative that follows is a profound and disturbing exploration of the nature of guilt, vengeance, language, and the power of evil—each undiminished over time. George Steiner's stunning novel, now with a new afterword, will continue to provoke our thinking about Nazi Germany's unforgettable past. "Two readings have convinced me that this is a fiction of extraordinary power and thoughtfulness. . . . [A] remarkable novel."—Bernard Bergonzi, *Times Literary Supplement* "In this tour de force Mr. Steiner makes his reader re-examine, to whatever conclusions each may choose, a history from which we would prefer to avert our eyes."—Edmund Fuller, *Wall Street Journal* "Portage largely avoids both the satisfactions of the traditional novel and the horrifying details of Holocaust literature. Instead, Steiner has taken as his model the political imaginings of an Orwell or Koestler. . . . He has produced a philosophic fantasy of remarkable intensity."—Otto Friedrich, *Time*

The Social License Sep 19 2022 This unique book combines a colourful history of Bolivian politics with some of the most advanced quantitative techniques yet developed for socio-political risk analysis. This is the story of how a foreign-owned private sector mining company (Minera San Cristobal - MSC) earned, lost, and regained its social licence to operate. Robert Boutilier and Ian Thomson, leading experts in stakeholder management theory and practice, transform the concept of the SLO from a metaphor to a management tool. The book traces the development of new concepts and measures in the field of stakeholder engagement while following the narrative of a community struggling with a fundamental change in its identity from a declining, malnourished llama-herding village to one of the richest towns in Bolivia. This remarkable story will inspire practitioners in the field of stakeholder management; it will provide an invaluable roadmap for professionals working on land re-use projects in the energy, mining, and conservation sectors; it will make stakeholder relations concepts and techniques accessible to students through an engaging and in-depth case study; and it will open your eyes to one of the most fascinating accounts of how two different cultures collided and then came together to address different but aligned goals.
